I met with Blake, Franklin Mechanical and John Fartro, Branch Builds at the Sewage Pump Station location. Blake advised that he would have all of the Sewage Pump Station Controls set today and that he plans on setting the Pumps tomorrow. The Electrician could then make the necessary connections. John requested a copy of the Pump Submittal so that he could make sure the Electrician pulled the right wire. I advised him that it was sent to everyone in March, but that I would send him a copy of what was sent out.
