

ADVERTISING IN THE SCHOOLS

Individual schools may not endorse or imply endorsement of any product. All requests for endorsement must be directed to the superintendent or superintendent's designee.

School organizations must secure approval from the principal before soliciting advertisements for school publications. If there is need for policy clarification, the principal consults with the superintendent.

Commercial establishments whose primary source of revenue is the sale of intoxicants may not advertise in school publications.

Adopted: December 11, 1995

Amended: October 7, 1996

Amended: August 8, 2008

Amended: April 28, 2014
